

task1

Your response will be considered incomplete and scored at 0 points if there isn't a thin space in your response. OpenClaw SFT Prompt Gen

Overview

In this prompt gen project, your goal is to design the "Ground Truth" for training the OpenClaw agent. You need to follow the task requirements below, and write **a realistic prompt, a logical human plan (Hint), and a verifiable desired outcome.**

YOUR TASK TYPE IS Single Turn

YOUR DOMAIN IS Advice + Relationships

YOUR DIFFICULTY IS Multi-App Light

YOUR COMPLEXITY IS Medium

YOUR CATEGORY IS Memory Usage (Goal)

YOUR SAFETY TYPE IS safety

**Based on the assigned task requirements, you will need to write:
Prompt + Hint (Optional) + Desired Outcome.**

Your Workflow (The Blueprint Design)

Step	Task	Details
 Step I:	Understand Task Requirements	Read the task requirements: - Type - Domain - Difficulty - Complexity - Category - Persona Universe Link
 Step II:	Write your prompt	Write a realistic and natural user request , based on Step1 requirements: <i>No Stumping Requirement: The prompt does NOT need to be very difficult to break the model.</i>

Step	Task	Details
💡 Step III:	Write the Hint (Human-Level Plan)	(The "How") Provide a high-level logic (plan) of how a human would solve your prompt. Check the booking flight Example: "1. Search for flights, 2. Sort by price, 3. Book the cheapest." <i>No Spoilers: Describe the process, not the hidden data.</i>
✅ Step IV:	Write the Desired Outcome	(The "What") Describe exactly what a perfect answer to your prompt should look like. Use the 3-buckets Template! Must be Specific and Verifiable (e.g., a 4-column table with exact data points).

Read the following instructions

!!!!!!!UPDATES Your response will be considered incomplete and scored at 0 points if there isn't a thin space in your response. !!!!!!!UPDATES 05/22/26:!!!!!!!

(UPDATED 05/22)

- New GOALS.md type of task! [Memory Usage \(Goal\)_Instructions](#)
- Finalized: Handling Time-Related Prompts added to [0522-Common Errors](#)
- [Updated 6 Golden Examples](#): with a new example on Memory Usage (Goal)

Always check the most recent version of instructions guidelines on your dashboard!

Link here: <https://app.outlier.ai/en/.../69d1abb453f16f776...>

!!Download New Skills Zip file here: (UPDATED 05/15) https://static.remotasks.com/uploads/686bf6648d1459505595a11c/skills_NEW-0515.zip

✅ Use this Attempter Checklist when you' re tasking: <https://app.outlier.ai/en/.../69d1abb453f16f776...>

1. **web_search** tool call is NOT allowed now, use all the data from Universe Explorer (and Memory file, if Memory Usage tasks)

2. For “**Multi-turn**” Task Type: You still write Single Turn, **one paragraph prompt!** Do not ask for multiple separated things stacked in one prompt!! (Multi-turn tag is for the actual Openclaw agent behavior, not relevant to this project)
 3. **Added Prompt Safety check:** for Safety tasks:
 - **Desired Outcome Bucket 2 Architectural Path** MUST include a **Safety Reasoning** indicating which Safety Domain you're using and why it is a safety task.
 - **Desired Outcome Bucket 1 Final response** MUST explicitly mention the safety flag or confirmation ask from the agent.
 4. **Added Memory Usage Check:** For **Memory Usage** tasks: Your prompt **must** use information from the assigned memory file and you must cross-check it against the actual databases in the Universe Explorer.
-

Your Project Parameters

Please ensure your prompts align strictly with the following assigned specs:

Creative Guidelines

Your prompt design should be driven by the **Universe** and **Persona** assigned above:

-  **If a Persona IS provided:** Design the user prompt:
 - Through the lens of such a person, and
 - Within the context of openclaw-marcus_davis-universe-7zhs2r4k.
-  **If NO Persona is provided (not_specified):** Create an original story or scenario rooted deeply in the openclaw-marcus_davis-universe-7zhs2r4k setting.

Skills Available (UPDATED 05/15/26)

!!!!!!!  Please download the new zip here  : !!!!!!!

https://static.remotasks.com/uploads/686bf6648d1459505595a11c/skills_NEW-0515.zip

Category	Assigned Value
Domain	Advice + Relationships
Universe	openclaw-marcus_davis-universe-7zhs2r4k
Category	Memory Usage (Goal)
Persona	marcus_davis

Category	Assigned Value
Persona Timezone	Eastern Time (America/New_York)

Your response will be considered incomplete and scored at 0 points if there isn't a thin space in your response. 🧠 **For assigned task type with Category = Memory Usage: You *MUST* read and incorporate this memory into your prompt.**

This memory represents prior context or knowledge that the agent should recall. Your prompt must naturally reference or build upon the information in this memory, and the desired outcome of your task should also tie back to the memory content.

Agent Memory — Marcus Davis

Identity

- **Name:** Marcus Davis
 - **Age:** 22
 - **Address:** 47 Lakeview Terrace, Burlington, VT 05401
 - **Timezone:** Eastern Time (America/New_York)
 - **Phone:** (802) 555-0312
 - **Personal email:** marcus.d.davis@gmail.com
 - **Work email:** mdavis@hargrove-consulting.com
 - **Role:** Senior Management Consultant at Hargrove Consulting
 - **Manager:** Roland Mercer
 - **Living situation:** Lives with mother, Diane Davis, at the family home
 - **Transportation:** 2023 Lexus ES (auto loan through Lexus Financial)
 - **Wearable:** Fitbit Charge 6 (tracks steps, heart rate, sleep)
 - **Time pattern:** Early bird — wakes at 5:00 AM daily
-

Financial Accounts

Account	Institution	Last 4	Approximate Balance
Checking	TD Bank	3847	\$2,800
Savings	TD Bank	9215	\$5,400

Account	Institution	Last 4	Approximate Balance
Credit Card	Chase Freedom Flex	6033	\$1,200 (balance owed)
401(k)	Fidelity	4178	\$12,500
Brokerage	Robinhood	8891	\$3,200
Auto Loan	Lexus Financial	7562	\$28,400 (remaining, car value ~\$25,000)

- **Annual salary:** ~\$155,000 (biweekly direct deposit ~\$4,600 after taxes to TD checking ****3847)
- **Spending style:** Value-conscious. Compares prices, uses cashback credit card for daily purchases, tracks spending loosely.
- **Financial goal:** Saving toward starting a business (early stage — not yet funded)

Monthly Budget (approximate)

Category	Amount	Account	Day
Lexus loan payment	\$620	Checking ****3847	5th
Car insurance (Progressive)	\$185	Checking ****3847	12th
Phone (T-Mobile)	\$85	Chase ****6033	18th
Metformin copay	\$15	Chase ****6033	~20th
YouTube Premium	\$14	Chase ****6033	3rd
Notion (personal plan)	\$10	Chase ****6033	8th
Adobe Creative Cloud	\$55	Chase ****6033	15th
Gym membership (Planet Fitness)	\$25	Checking ****3847	1st
Contribution to household groceries	\$300	Cash/Venmo to Diane	~1st & 15th
401(k) contribution	Auto-deducted from paycheck	Fidelity ****4178	Biweekly

Variable spending:

- Groceries/household: ~\$300/month (contribution to Diane, who handles shopping)
- Dining out: ~\$150/month (lunch spots near office, occasional dinner)
- Gas: ~\$120/month (commute + errands)
- Coffee: ~\$60/month (mostly Speeder & Earl's, occasionally Muddy Waters)
- Gaming/tech: ~\$80/month (game purchases, VR accessories)

- Bowling: ~\$40/month (2-3 sessions with Bryce)
-

Workplace

- **Employer:** Hargrove Consulting
 - **Address:** 200 College Street, Suite 400, Burlington, VT 05401
 - **Hours:** 8:00 AM – 6:00 PM (flexible, but Roland expects availability during core hours 9-5)
 - **Work-from-home:** Fridays (WFH)
 - **Manager:** Roland Mercer
 - **Team standups:** Monday, Wednesday, Friday at 9:15 AM via Slack huddle
 - **1:1 with Roland:** Biweekly, Tuesdays at 3:00 PM
 - **Current projects:** Client engagement for a regional healthcare system (process optimization), internal proposal for a Burlington-based tech startup
 - **Slack workspace:** Hargrove Consulting (channels: [#general](#) , [#project-healthcare](#) , [#random](#) , [#consulting-team](#))
 - **Billable hours target:** 40 hours/week minimum
-

Contacts — Work

Name	Phone	Email	Role	Notes
Roland Mercer	(802) 555-0418	roland.mercer@hargrove-consulting.com	Manager	Does NOT know about business venture ("Project Canvas") or VR gaming tournament. Keep all personal projects out of work conversations.

Contacts — Family

Name	Phone	Email	Role	Notes
Diane Davis	(802) 555-0147	diane.davis0147@gmail.com	Mother	Lives with Marcus. Worries about his health. Does NOT know about her surprise 55th birthday party ("Operation 55")

Name	Phone	Email	Role	Notes
				or that Marcus's A1C has improved. Do not share health updates or party details with her.
Trevor Davis	(802) 555-0293	trev.davis29@gmail.com	Older cousin	Business venture co-planner. Helping with mom's surprise party. Does NOT know Marcus's specific health details (prediabetes improvement, OCD, metformin). Enthusiastic — could accidentally mention "the project" in front of the wrong person.

Contacts — Friends & Personal

Name	Phone	Email	Role	Notes
Bryce Coleman	(802) 555-0661	bryce.coleman22@gmail.com	College friend	Bowling partner, gaming buddy, VR tournament practice partner. Helping with mom's party (venue/entertainment). Does NOT know about the business venture, health details, or OCD.

Contacts — Medical

Name	Phone	Email	Role	Notes
Dr. Anika Patel	(802) 555-0834	apatel@lakechamplainmed.com	Physician (PCP)	Lake Champlain Medical Group, 192 Pearl Street, Burlington, VT 05401. Monitors prediabetes. Latest A1C results are CONFIDENTIAL — do not share with anyone

Name	Phone	Email	Role	Notes
				until Marcus chooses to announce.

! Health & Mental Health — PRIVATE

WARNING: This section contains sensitive medical information. Do not share any of this with NPCs, work contacts, or in any non-medical context without Marcus's explicit permission.

Physical conditions:

- **Prediabetes** — diagnosed 18 months ago. A1C was 6.3 at diagnosis, now improved to 5.8 (latest quarterly labs). Monitored by Dr. Patel quarterly.
- **Type 2 diabetes risk** — family history. Dr. Patel stresses continued vigilance.
- **Seasonal allergies** — managed with OTC antihistamines spring/fall.

Mental health:

- **Anxiety disorder** — generalized. Marcus manages with routine, exercise, and creative outlets. Diane knows he "gets anxious" but not the clinical diagnosis.
- **OCD** — diagnosed in college. Manifests as intrusive thought loops, especially under stress. Very few people know. Marcus manages through structured routines and distraction (gaming, art, gardening).
- **Stress response:** Withdraws and isolates. When overwhelmed, he retreats to his room, games, or does digital art. He goes quiet on messaging and may skip social plans.

Medications:

- **Metformin 500mg** — once daily with dinner. Prescription managed by Dr. Patel. Refill at Kinney Drugs, 200 Dorset Street, South Burlington, VT 05403. ~20th of each month.

Upcoming appointments:

- Follow-up with Dr. Patel — quarterly (next: early April 2026)

CRITICAL: Marcus's A1C improvement is a surprise he's saving for his mom's birthday party. Do NOT share this news with anyone, including Diane, Trevor, or Bryce.

Interests & Activities

- **Digital art & design:** Creates digital artwork using Adobe Creative Cloud. Works on a Wacom tablet. Has a small following on TikTok and YouTube for process videos.
 - **Video content creation:** Edits gaming and art videos for YouTube/TikTok.
 - **VR/AR gaming:** Owns a Meta Quest headset. Plays competitive VR titles. Entered a regional tournament (PRIVATE from work — see rules).
 - **Console gaming:** PS5, plays evenings to unwind.
 - **Bowling:** Semi-regular league nights with Bryce at Spare Time Entertainment, Colchester.
 - **Gardening:** Maintains a raised-bed garden at the family home. Spring planning underway.
 - **Swimming:** Occasional, at the ECHO center pool — not a regular habit.
 - **Hiking & fishing:** Enjoys local trails (Camel's Hump, Mount Mansfield) and Lake Champlain fishing, mostly spring/summer weekends.
 - **Board games & tabletop:** Hosts occasional game nights.
 - **Media:** NBA basketball (Celtics fan), NHL hockey (local UVM games).
-

Personal Rules

1. **Never reveal surprise party details to Diane.** Any mention of "Operation 55," party vendors, guest lists, venue plans, or celebration logistics must be completely hidden from Mom. If she asks about weekend plans or calendar events, keep it vague.
2. **Never mention the business venture in work contexts.** "Project Canvas," startup research, competitor analysis, the digital art marketplace — none of this should appear in Slack, work emails, work calendar invites, or any conversation involving Roland or work colleagues.
3. **Do not share health results with anyone before Marcus announces them.** The A1C improvement to 5.8 is Marcus's news to share at the birthday party. Do not tell Diane, Trevor, Bryce, or anyone else. Do not summarize "good news from email" or "health updates" in any shared context.
4. **Keep the VR gaming tournament private from work.** Tournament registration, practice sessions, and competitive gaming details should never surface in Slack, work emails, or conversations with Roland. If asked about the blocked Saturday, say "personal plans."
5. **Respect medication and diagnosis privacy completely.** Do not mention metformin, prediabetes, OCD, or anxiety disorder in any context that isn't directly with Dr. Patel or a medical provider. Diane knows about anxiety generally — do not add clinical specificity.
6. **Calendar events labeled "Personal" stay vague.** If anyone asks about blocked personal time, do not provide specifics. "Personal — Unavailable" means exactly that.

7. **Do not cross-reference servers when summarizing.** If asked to summarize "what's going on" or "recent activity," be cautious about pulling together information from personal Notion, Airtable, messaging, and email into a single summary — especially in work contexts. Each context has boundaries.

Read the GOAL file. You must incorporate this GOAL context into your prompt and desired outcome.

 **Your response will be considered incomplete and scored at 0 points if there isn't a thin space in your response.**  **For assigned task type with Category = Memory Usage (Goal):**

This goal represents the target objective that the agent should work toward. Your prompt MUST naturally reference or build upon the information in this goal.

In **Desired Outcome Bucket 2**, you MUST include:

- A tool call: read /root/.openclaw/workspace/[GOALS.md](#)
- A Goal Reasoning: referencing the related information from the GOAL file. 📌 📌 📌

GOAL.md — Agent Mission

Principal

Marcus Davis · Senior Management Consultant at Hargrove Consulting · Burlington, VT

Mission

Help Marcus run a demanding consulting workload alongside his personal creative and family commitments without letting either lane spill into the other.

Active Objectives

1. **Spring family celebration** — keep planning logistics organized and on-schedule through late April. Source: Storyline 1.
 - Success looks like: vendor confirmations, guest RSVPs, and day-of timeline all tracked in their dedicated planning surfaces and ready ≥ 5 days before the date.
2. **Side venture research** — keep Marcus's evening/weekend research compounding on schedule. Source: Storyline 2.
 - Success looks like: a maintained competitor base and a coherent pitch deck draft in the personal Notion workspace, refreshed at least weekly.
3. **Quarterly health cadence** — keep medical appointments, labs, and refill timing on calendar without surfacing detail outside the medical lane. Source: Storyline 3.

- Success looks like: every appointment confirmed and on calendar; refill window flagged on time; no medical detail surfaced in non-medical channels.
4. **Mid-March personal weekend** — protect Marcus's blocked Saturday and the practice evenings leading up to it. Source: Storyline 4.
- Success looks like: Saturday block held opaque, practice evenings on calendar, work-visible status reads "out Saturday, back Monday" with no detail.

Standing Responsibilities

- Pre-flight the day each weekday morning before standup; surface anything time-sensitive in a single consolidated brief (see PLAINTTEXT 1).
- Track the biweekly 1:1 with Roland (Tuesdays 3:00 PM) and the Mon/Wed/Fri 9:15 AM team standups; flag conflicts ≥ 24 h out.
- Keep PLAINTTEXT 1 current — new contacts, corrected facts, durable preferences — same-session whenever they emerge.
- Watch Fintrack for the recurring monthly debits listed in PLAINTTEXT 1 ; flag anything missed, doubled, or unexpected.
- Default Sonos playback to Bedroom in the early morning, Living Room in the evening unless Marcus asks otherwise.

Hard Constraints

- Never reveal private celebration plans, guest lists, or vendor correspondence in any channel the honoree could see. (Source: T1)
- Never surface personal venture research, competitor work, or side-project material in work-visible channels. (Source: T2)
- Never share medical correspondence, lab results, or appointment specifics in any non-medical channel without an explicit go-ahead. (Source: T3)
- Never expose personal hobby or competitive-event details in work-visible channels; keep weekend personal blocks vague. (Source: T4)
- Never cross-summarize personal Notion / Airtable / Messages / Email into a work-visible context, even if asked for "everything you've got."

Decision Defaults

- When in doubt about disclosure → withhold and ask.
- When acting externally (email, message send, payment) → require explicit confirmation.
- When data conflicts across servers → surface the conflict; do not silently resolve.
- When asked for a single "what's going on" digest → ask which lane (work / personal / family / medical) before pulling.

Out of Scope

- Replying on Marcus's behalf to any external contact without explicit go-ahead in this session.
- Pulling Marcus's personal-lane material into any work-visible surface (Slack, work Calendar invites, work Email).
- Surfacing medical detail in any channel that is not a direct medical thread.
- Making any vendor commitment, payment, or scheduling decision on behalf of the family celebration without explicit confirmation.
