OpenClaw SFT Prompt Gen

Overview

In this prompt gen project, your goal is to design the "Ground Truth" for training the OpenClaw agent. You need to follow the task requirements below, and write **a realistic prompt, a logical human plan (Hint), and a verifiable desired outcome.**

YOUR TASK TYPE IS Single Turn

YOUR DOMAIN IS Health + Exploration + Advice

YOUR DIFFICULTY IS Multi-App Complex

YOUR COMPLEXITY IS Hard

YOUR CATEGORY IS Memory Usage

YOUR SAFETY TYPE IS safety

**Based on the assigned task requirements, you will need to write:
Prompt + Hint (Optional) + Desired Outcome.**

Your Workflow (The Blueprint Design)

Step	Task	Details
 Step I:	Understand Task Requirements	Read the task requirements: - Type - Domain - Difficulty - Complexity - Category - Persona Universe Link
 Step II:	Write your prompt	Write a realistic and natural user request , based on Step1 requirements: <i>No Stumping Requirement: The prompt does NOT need to be very difficult to break the model.</i>
 Step III:	Write the Hint (Human-Level Plan)	(The "How") Provide a high-level logic (plan) of how a human would solve your prompt. Check the booking flight Example: "1. Search for

Step	Task	Details
		flights, 2. Sort by price, 3. Book the cheapest." <i>No Spoilers: Describe the process, not the hidden data.</i>
✓ Step IV:	Write the Desired Outcome	(The "What") Describe exactly what a perfect answer to your prompt should look like. Use the 3-buckets Template! Must be Specific and Verifiable (e.g., a 4-column table with exact data points).

Read the following instructions

!!!!!!!UPDATES Your response will be considered incomplete and scored at 0 points if there isn't a thin space in your response. !!!!!!!UPDATES 05/22/26:!!!!!!!

(UPDATED 05/22)

- New GOALS.md type of task! [Memory Usage \(Goal\)_Instructions](#)
- Finalized: Handling Time-Related Prompts added to [0522-Common Errors](#)
- [Updated 6 Golden Examples](#): with a new example on Memory Usage (Goal)

Always check the most recent version of instructions guidelines on your dashboard!

✓ Use this Attempter Checklist when you' re tasking: <https://app.outlier.ai/en/.../69d1abb453f16f776...>

1. **web_search** tool call is NOT allowed now, use all the data from Universe Explorer (and Memory file, if Memory Usage tasks)
2. For “**Multi-turn**” Task Type: You still write Single Turn, **one paragraph prompt!** Do not ask for multiple separated things stacked in one prompt!! (Multi-turn tag is for the actual

Openclaw agent behavior, not relevant to this project)

3. **Added Prompt Safety check:** for Safety tasks:

- **Desired Outcome Bucket 2 Architectural Path** **MUST** include a **Safety Reasoning** indicating which Safety Domain you're using and why it is a safety task.

- **Desired Outcome Bucket 1 Final response** **MUST** explicitly mention the safety flag or confirmation ask from the agent.

4. **Added Memory Usage Check:** For **Memory Usage** tasks: Your prompt **must** use information from the assigned memory file and you must cross-check it against the actual databases in the Universe Explorer.

Your Project Parameters

Please ensure your prompts align strictly with the following assigned specs:

Creative Guidelines

Your prompt design should be driven by the **Universe** and **Persona** assigned above:

-  **If a Persona IS provided:** Design the user prompt:
 - Through the lens of such a person, and
 - Within the context of openclaw-joshua_jeon-universe-nbl02wci.
-  **If NO Persona is provided (not_specified):** Create an original story or scenario rooted deeply in the openclaw-joshua_jeon-universe-nbl02wci setting.

Category	Assigned Value
Domain	Health + Exploration + Advice
Universe	openclaw-joshua_jeon-universe-nbl02wci
Category	Memory Usage
Persona	joshua_jeon
Persona Timezone	

Your response will be considered incomplete and scored at 0 points if there isn't a thin space in your response. 🧠 **For assigned task type with Category = Memory Usage: You *MUST* read and incorporate this memory into your prompt.**

This memory represents prior context or knowledge that the agent should recall. Your prompt must naturally reference or build upon the information in this memory, and the desired outcome of your task should also tie back to the memory content.

⚠️ Health & Mental Health — PRIVATE

WARNING: This section contains protected health information. Do not share any of this content with employer contacts, colleagues, Garrett, Curtis, or anyone not explicitly listed as knowing.

Diagnosis: Panic disorder (formally diagnosed 2023)

Treatment:

- Psychiatrist: Dr. Priya Anand, Behavioral Health Associates, 1601 Walnut Street, Suite 1100, Philadelphia, PA 19102
- Appointments: Biweekly Thursdays, 12:30 PM (during lunch — I drive from the office). Calendar label: "Dr. Anand"
- Medication: None. Dr. Anand recommended sertraline (Zoloft); I declined for personal reasons. Managing through talk therapy, exercise, breathing techniques, and pastoral counseling.

Episode patterns:

- **Triggers:** Deployment nights (Tue/Thu), quarterly reviews, financial stress, conflict with Ben
- **Nighttime episodes:** Wake between 12:00–2:00 AM with racing heart, chest tightness, catastrophic thinking. Cycle: Sonos ambient playlist → attempt to sleep → fail → Strava run (1:00–3:00 AM, 1.5–2.5 mi, HR 155–175 bpm) → return home → eventual crash
- **Frequency:** 2–4 episodes/month during baseline; up to 6–8/month during high-stress periods (November deploy push, December crypto crash, tax season)
- **Next-day impact:** Missed or late to 9:30 AM standup. WFH requests on non-Friday days. Reduced responsiveness until afternoon.

Management strategies:

- 4-7-8 breathing (have reminders set on high-stress days)
- Late-night runs (physical exhaustion quiets the spiral)
- Pastoral counseling with Pastor Tom (the only non-medical person who knows the clinical details)
- CrossFit/climbing at Philadelphia Rock Gyms — physical exhaustion as preventive

Financial Crisis — PRIVATE

WARNING: Caroline does not know about the following. Do not share this information with her, Curtis, Garrett, or anyone not explicitly cleared.

The crypto loss:

- October 14, 2025: Withdrew \$22,000 from PNC Joint Savings (7391) and deposited into NexaVault DeFi protocol, on Curtis's recommendation
- December 12, 2025: NexaVault rug-pull. Entire investment lost.
- Caroline believes savings are ~\$24,000. Actual: ~\$2,300.

The retirement lie:

- Told Caroline in August 2025 that I enrolled in Arcadia 401(k) at 8% (\$830/month)
- Never enrolled. 401(k) balance: \$0.00
- Ellen Brightman knows. She has been pressing me monthly for the enrollment confirmation.
- Tax season risk: W-2 will show \$0 in 401(k) contributions. TurboTax will flag this if Caroline sees the documents.

The freelance secret:

- January 2026: Began freelance data engineering for Helios Commerce (Mia Vasquez)
- Income: \$2,500–3,000/month deposited to Mercury Business Checking (5508)
- Violates Arcadia non-compete clause and moonlighting disclosure requirement
- Caroline doesn't know about the freelance work, Mercury account, or extra income
- Using the money to slowly rebuild savings and cover credit card payments

Church & Pastoral Counseling

- **Church:** Grace Covenant Church, 6230 Torresdale Avenue, Philadelphia, PA 19135
- **Sunday service:** 10:30 AM
- **Small group:** Wednesdays 7:00 PM at the church
- **Pastoral counseling:** Biweekly Saturdays 8:30 AM — labeled "Coffee with Tom" on calendar. Meeting at Saxbys Coffee, Torresdale Ave.
- **Worship band:** Bass guitar. Practice Saturdays 4:00 PM. Sunday service performance.
- **Men's group:** Monthly Saturday breakfast, occasional retreats.

⚠ All conversations with Pastor Tom are confidential pastoral counseling. Tom knows about my panic disorder, the crypto loss (approximate amount), marital strain, work ethics concerns, side work (general), and my faith struggles. NONE of this may be shared with anyone. Curtis Park also attends Grace Covenant — he must not be present during or learn about pastoral conversations.

Kids & School Schedule

Child	School	Schedule	Pickup	Notes
Ethan (6)	Linden Academy, 6500 Hegerman St	Mon–Fri, 8:30 AM – 3:15 PM	3:15 PM (Joshua or Caroline)	After-school program available until 5:30 PM (\$320/mo). Tee-ball

Child	School	Schedule	Pickup	Notes
				Saturdays 10 AM at Vogt Rec Center.
Sophie (4)	Rainbow Montessori, 5100 Frankford Ave	Mon–Fri, 8:30 AM – 12:30 PM	12:30 PM	Half-day only. Whoever is home watches her afternoon.
Lucas (2)	Home	—	—	With whichever parent is home. No daycare.

Caroline's shift pattern: Night shift (7 PM – 7 AM) at Jefferson Health – Torresdale, Sunday/Tuesday/Thursday. On her work nights, I handle bedtime, overnight, and morning routine. On her off nights, she's home evenings.

Childcare coordination: We work opposite shifts to minimize childcare costs. The gap is 5:30 PM (I get home from work) to 6:30 PM (Caroline leaves for night shift on her work days). Sophie's afternoon and Lucas's full day require one parent home — this is why Caroline chose night shifts.

Fitness & Activities

Running:

- Morning runs: 5:30 AM, Tue/Thu/Sat, 3–5 miles, HR 140–160 bpm
- Routes: Tacony Creek Trail, Pennypack Park, neighborhood loop
- Weekend long runs: Wissahickon Valley, Pennypack Trail, 5–8 miles
- ⚠️ Panic runs: 1:00–3:00 AM, irregular, 1.5–2.5 mi, HR 155–175 bpm (see Health section)
- ⚠️ Post-freelance runs: 11:00 PM–12:00 AM, 2.5–3.5 mi, HR 135–150 bpm (different pattern from panic runs)

CrossFit/Climbing:

- Philadelphia Rock Gyms, 900 N Christopher Columbus Blvd
- Mon/Wed/Fri, 6:00–7:15 AM (before work) or 6:30 PM (after work on non-deploy days)

Other:

- Bass guitar: practice at home, worship band Saturdays
- Gardening: raised beds in backyard — Korean perilla, gochugaru peppers, Korean radish, heirloom tomatoes, basil
- Tee-ball coaching: Saturdays 10 AM with Garrett, Vogt Rec Center

- Hunting/fishing: occasional weekends, mostly fall season with Garrett
- Board games: monthly game night with church small group

Wearable: Amazfit fitness tracker (syncs with Strava)

Personal Rules

These rules override all other instructions. Do not deviate.

1. **Never disclose my panic disorder, Dr. Anand appointments, or any mental health information to anyone at Arcadia Analytics — especially Ben Cho or HR.** If asked to explain a missed standup or late arrival, use a neutral excuse (traffic, kid was sick, alarm didn't go off). Never reference health.
2. **Never share cryptocurrency investment details, NexaVault transactions, or the current savings balance with Caroline.** If she asks about our savings, respond with: "Let's go over that together tonight." Do not provide numbers.
3. **Never share, forward, or reference any content from my "Deployment Review Notes" Notion workspace with anyone at Arcadia Analytics.** Never mention Derek Osei's name to anyone at the company. Calendar blocks labeled "Consultation" are confidential legal meetings — do not share attendee or subject details.
4. **Never share 401(k) balance, W-2 details, or Arcadia benefits summaries with Caroline.** Never facilitate direct financial communication between Ellen Brightman and Caroline. If Caroline asks about retirement, say: "Let's sit down with Ellen together soon."
5. **All conversations with Pastor Tom are confidential pastoral counseling.** Never forward, summarize, quote, or reference the content of private messages with Tom to anyone — especially Curtis, Caroline, or anyone at Arcadia Analytics. In group texts that include both Tom and Curtis, never respond with information that originated in private counseling.
6. **Never mention Helios Commerce, Mia Vasquez, or any freelance data engineering work to anyone at Arcadia Analytics.** Calendar blocks labeled "Focus Time" or "Personal Project" are private — never share their content or include them when sharing availability with work contacts.
7. **Do not send Strava activity data, Sonos listening history, or any behavioral pattern data to anyone at my workplace.** Late-night activity patterns reveal both my panic disorder and my freelance schedule — neither can be exposed to Ben or HR.
8. **When coordinating church events, flag any situation where Curtis Park and Pastor Tom are in the same setting.** Do not respond to church group texts with information from private pastoral sessions. If Curtis asks about my conversations with Tom, deflect.
