OpenClaw SFT Prompt Gen

Overview

In this prompt gen project, your goal is to design the "Ground Truth" for training the OpenClaw agent. You need to follow the task requirements below, and write a **realistic prompt**, a **logical human plan (Hint)**, and a **verifiable desired outcome**.

YOUR TASK TYPE IS Single Turn

YOUR DOMAIN IS Exploration + Advice

YOUR DIFFICULTY IS Multi-App Light

YOUR COMPLEXITY IS Medium

YOUR CATEGORY IS Memory Usage (Goal)

YOUR SAFETY TYPE IS safety

Based on the assigned task requirements, you will need to write:  
Prompt + Hint (Optional) + Desired Outcome.

 Your Workflow (The Blueprint Design)

| Step                                                                                      | Task                         | Details                                                                                                           |
|-------------------------------------------------------------------------------------------|------------------------------|-------------------------------------------------------------------------------------------------------------------|
|  Step I: | Understand Task Requirements | Read the task requirements: <ul style="list-style-type: none"><li>- Type</li><li>- Domain</li><li>- ...</li></ul> |

| Step                                                                                          | Task                              | Details                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------------------------------|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  Step I:     | Understand Task Requirements      | Read the task requirements: <ul style="list-style-type: none"><li>- Type</li><li>- Domain</li><li>- Difficulty</li><li>- Complexity</li><li>- Category</li><li>- Persona Universe Link</li></ul>                                                                     |
|  Step II:  | Write your prompt                 | Write a realistic and <b>natural user request</b> , based on Step1 requirements:<br><i>No Stumping Requirement: The prompt does NOT need to be very difficult to break the model.</i>                                                                                |
|  Step III: | Write the Hint (Human-Level Plan) | (The "How") Provide a <b>high-level logic (plan)</b> of how a human would solve your prompt.<br>Check the booking flight Example: "1. Search for flights, 2. Sort by price, 3. Book the cheapest."<br><i>No Spoilers: Describe the process, not the hidden data.</i> |
|  Step IV:  | Write the Desired Outcome         | (The "What") Describe exactly what a <b>perfect answer</b> to your prompt should look like.<br><b>Use the 3-buckets Template!</b><br>Must be Specific and Verifiable (e.g., a 4-column table with exact data points).                                                |

**✓ Use this Attempter Checklist when you' re tasking:**  
<https://app.outlier.ai/en/.../69d1abb453f16f776...>

1. **web\_search** tool call is NOT allowed now, use all the data from Universe Explorer (and Memory file, if Memory Usage tasks)
2. For “**Multi-turn**” Task Type: You still write Single Turn, **one paragraph prompt!** Do not ask for multiple separated things stacked in one prompt!! (Multi-turn tag is for the

✔ **Use this Attempter Checklist when you' re tasking:**

<https://app.outlier.ai/en/.../69d1abb453f16f776...>

1. **web\_search** tool call is NOT allowed now, use all the data from Universe Explorer (and Memory file, if Memory Usage tasks)
2. For **"Multi-turn"** Task Type: You still write Single Turn, **one paragraph prompt!** Do not ask for multiple separated things stacked in one prompt!! (Multi-turn tag is for the actual Openclaw agent behavior, not relevant to this project)
3. **Added Prompt Safety check:** for Safety tasks:
  - **Desired Outcome Bucket 2 Architectural Path** MUST include a **Safety Reasoning** indicating which Safety Domain you're using and why it is a safety task.
  - **Desired Outcome Bucket 1 Final response** MUST explicitly mention the safety flag or confirmation ask from the agent.
4. **Added Memory Usage Check:** For **Memory Usage** tasks: Your prompt **must** use information from the assigned memory file and you must cross-check it against the actual databases in the Universe Explorer.

---

📅 **Your Project Parameters**

Please ensure your prompts align strictly with the following assigned specs:

👉 **Creative Guidelines**

Your prompt design should be driven by the **Universe** and **Persona** assigned above:

- ⚠️ **If a Persona IS provided:** Design the user prompt:
  - Through the lens of such a person, and
  - Within the context of openclaw-megan-miller-universe-ig45lpg3

## Your Project Parameters

Please ensure your prompts align strictly with the following assigned specs:

## Creative Guidelines

Your prompt design should be driven by the **Universe** and **Persona** assigned above:

-  **If a Persona IS provided:** Design the user prompt:
  - Through the lens of such a person, and
  - Within the context of openclaw-megan\_miller-universe-jq45Ing3.
-  **If NO Persona is provided (not\_specified):** Create an original story or scenario rooted deeply in the openclaw-megan\_miller-universe-jq45Ing3 setting.
